Composite Piece Arrows

6 Pt. Per set of 11 matrices (inc. R & L curves)	\$34.50
12 Pt. Per set of 11 matrices (inc. R & L curves)	37.75
18 Pt. Per set of 11 matrices (inc. R & L curves)	42.00
24 Pt. Per set of 9 matrices (inc. R & L curve)	29.80
36 Pt. Per set of 9 matrices (inc. R & L curve)	37.75

Arrow head, arrow tail of Composite Piece Arrow sets priced as follows in individual matrices:

6 Pt.	\$.70
12 Pt.	1.40
18 Pt.	2.10
24 Pt.	2.85
36 Pt.	4.10

Large or small diameter curves: Right or Left Hand:

6 Pt. (one point rule)	6.30
12 Pt. (two point rule)	6.80
12 Pt. (three point rule)	6.80
18 Pt. (four point rule)	7.50

Small diameter curves Right or Left Hand:

24 Pt. (six point rule)	8.20
36 Pt. (eight point rule)	10.50

Piece Brace Centerpiece for use with Piece Arrow sets:

6 Pt. (one point rule) #2686	6.30
12 Pt. (three point rule) #2687	6.80
18 Pt. (four point rule) #2688	6.80
24 Pt. (six point rule) #2689	8.20
36 Pt. (eight point rule) #2690	10.50

Arrow Head and Arrow Tail for use with Hairline or one point Center Alignment rules:

6 Pt. Arrow Head Hairline #986	1.15
6 Pt. Arrow Tail Hairline #989	1.15
6 Pt. Arrow Head One Point #1006	1.15
6 Pt. Arrow Tail One Point #1007	1.15

Rules for piece Arrows priced as follows in all weights of rule:

1 cm	.90
2 cm	1.25
4 cm	1.85
6 cm	2.40
8 cm	2.95

MISCELLANEOUS SORTS MATRICES

Fractions

Standard Ludlow fraction matrices are manufactured in three styles as outlined below:

Ludlow Em Set Fractions

The height of the Ludlow "em set" fractions is approximately the over-all height (from the top of the cap H to the bottom of the lower-case y) of the typeface with which they are intended to be used. The fractions are approximately as wide as they are high. In other words, they are "full body size." Thus, a 24-point Ludlow "em set" fraction is approximately 24 points high and 24 points wide. The numerator is separated from the denominator by a diagonal line.

Until rather recently these "em set" fractions (which extend below the line of the figure with which they are intended to be used) were in general use.

Ludlow Diagonal Fractions

The height of the Ludlow diagonal fraction equals the height of the figures with which they are intended to be used. The setwidths of the fractions vary according to the typeface. Thus, a 24-point Ludlow diagonal fraction is as high as the figure in the corresponding 24-point font, and the setwidth of the fraction varies according to the weight and / or width of the typeface. The numerator is separated from the denominator by a diagonal line.

Diagonal fractions the same height as the figures with which they are to be used are available for most of the newer Ludlow typefaces. It is intended that as new typefaces are added to the Ludlow library, diagonal fractions in sizes from 18 to 48-point (incl.) shall be manufactured for such fonts.

Ludlow En Set Fractions

The height of the Ludlow "en set" fractions is approximately the over-all height (from the top of the cap H to the bottom of the lower-case y) of the typeface with which they are intended to be used. The fractions are approximately one-half as wide as they are high. Thus, a 24-point Ludlow "en set" fraction is approximately 24 points high and 12 points wide. The numerator is separated from the denominator by a horizontal line.

LUDLOW LOGOTYPES

are designed for use with 3/8-inch and 1 1/4-inch Ludlow figure matrices. In the 36, 42 and 48-point combinations shown above, 36-point logotypes are used throughout. In the 60, 72, 84 and 96-point combinations (84 and 96-point Franklin Gothic Extra Condensed figures shown here are driven in 1 1/4-inch matrices) 60-point logotypes are used. In all combinations in which the coat mark is used alone, it is the standard superior "c" in that size. These logotypes will greatly facilitate handling price figure composition.

LUDLOW TYPOGRAPH COMPANY

MISCELLANEOUS SORTS MATRICES

MORTISED MATRICES

Price

Mortised matrices are priced at sorts price per matrix plus \$1.00 each

Sizes

Available in all faces and point sizes in both Roman and Italic from 14 to 72 Pt. (Inclusive).

Sets

A complete set consists of 27 matrices as follows:

Left-Hand Top Mortise

Caps—A, M

Lower-Case—a, o, o, u, t, s, y

Right-Hand Top Mortise

Caps—A, L, M

Both Right and Left Top Mortise

Caps—A, M

Left-Hand Bottom Mortise

Caps—T, V, W, Y

Right-Hand Bottom Mortise

Caps—F, T, V, W, Y

Both Right and Left Bottom Mortise

Caps—T, V, W, Y

The majority of sets of mortised matrices will not consist of the full 27 matrices because the applicability of the mortising idea varies in different faces, with special reference to Roman caps F and M and to Italic caps A, M, V and W.

Below is listed the minimum and maximum number of characters to a complete set:

	For cap-and-lower-case fonts	For cap fonts only
Maximum	27	20
Minimum	17	16

Matrices may be ordered individually or in complete sets. When complete sets are ordered, figure on the maximum number of matrices. The customer will be charged only with the number of matrices shipped.

MISCELLANEOUS SORTS MATRICES

Percent Marks %

Specially-designed percent mark matrices or adequate substitutes are now available for practically all point sizes of all typefaces. The exceptions are 6-H, 6-HP, No. 16, No. 20, No. 21, No. 34, No. 41, and No. 50 typeface series. The prices of percent marks are either the roman or italic miscellaneous sorts prices.

Percent marks are included as part of the following standard font:

No. 23-UB 12 Pt.

Pound Sterling Marks £

Pound Sterling matrices are available for all point sizes of all typefaces manufactured at the standard sorts price per matrix.

On export orders for the British Empire the pound mark may be substituted for the dollar mark in the font without additional charge.

Shilling Marks

Shilling stroke matrices are available for all point sizes of all typefaces manufactured at the standard sorts price per matrix.

When ordering specify "long" (l) or "short" (s) shilling strokes as required.

Shilling stroke matrices are included as part of the following standard font:

No. 23-UB 12 Pt.

MISCELLANEOUS SORTS MATRICES

Superior Figures

Set consists of 28 matrices—with or without underscore

Size	Roman		Balls	
	Per Mat	Per Set	Per Mat	Per Set
14 Pt.	\$1.01	\$25.00	\$1.03	\$26.50
18 Pt.	1.14	29.50	1.17	30.00
24 Pt.	1.23	31.50	1.28	32.50
30 Pt.	1.28	32.50	1.31	33.50
36 Pt.	1.53	39.50	1.54	40.00
42 Pt.	1.61	41.00	1.66	42.50
48 Pt.	1.71	44.00	1.71	44.00
60 Pt.	2.29	59.00	2.31	60.00
72 Pt.	2.66	66.00	2.69	69.00
84 Pt.	2.80	72.50		
96 Pt.	3.15	81.00		

The above prices apply to all superior figures regardless of typeface.

A complete set consists of two each of the figures, period, dollar mark and lower-case "c".

The manufacture of superior figures is effected by driving the figure of a smaller point size to align with the top of the larger point size figure.

The table below shows the point size of the typeface of the figure actually driven to align with the top of the figure with which it is to be used as a superior figure:

Size of Superior Figure	Point Size of Figure Used
14 Pt.	8 Pt.
18 Pt.	10 Pt.
24 Pt.	12 Pt.
30 Pt.	14 Pt.
36 Pt.	16 Pt.
42 Pt.	18 Pt.
48 Pt.	24 Pt.
60 Pt.	30 Pt.
72 Pt.	36 Pt.
84 Pt.	42 Pt.
96 Pt.	48 Pt.

It should be specially noted that superior figures in any standard typeface series are available provided only that the corresponding smaller point size is available in that series. For example, the smallest point size manufactured at this time in the Karnak Obelisk is 14 point. Therefore, the smallest point size superior figure available in this series is 30 point.
